ABOUT MYSELF

Currently pursuing a Master's degree (M2) in Data Science and Intelligent Systems in Nador, I am dedicated to turning ideas into concrete solutions that deliver sustainable value. I am seeking a final-year internship to apply my skills in data science, data analysis, and big data. My goal is to actively contribute to creating value for your company.

EDUCATION

2023 – 2025
Master's Degree in Data Science and Intelligent Systems

Mohammed First University - Multidisciplinary Faculty of Nador

2021 – 2022
Bachelor's Degree in Mathematics and Computer Science

Mohammed First University - Faculty of Sciences, Oujda

2019 – 2021
University Diploma in General Studies in Mathematics and Computer Science

Mohammed First University - Faculty of Sciences, Oujda

2018 – 2019
Scientific Baccalaureate

Lycée Princesse Lalla Asmae

EXPERIENCE

02/2023 – 05/2023
Full-Time Intern - Ministry of Culture

- Developed an application for digitizing archives.
- Conducted data entry and verification tasks.
- Collaborated with the development team to ensure project success.
- Applied strong analytical skills to improve processes.

PROJETS

Improving Emergency Services Based on 911 Call Data

- Applied the CRISP-DM methodology for data collection, exploration, preparation, modeling, evaluation, and deployment to enhance emergency services.
- Optimized models using Random Forest, Decision Tree, and Gradient Boosting to improve prediction accuracy.
- Deployed the solution in a real-world application to optimize resource allocation during emergencies.
- **Technologies:** Python, Pandas, Scikit-learn, Matplotlib, Jupyter Notebook

Predicting Mobile Phone Price Range

- Analyzed mobile phone data to predict price ranges based on technical specifications.
- Utilized regression techniques, dimensionality reduction, and statistical analysis.
- Assessed multicollinearity and managed heteroscedasticity.
- Visualized relationships between variables for insights.

- **Methodology:** Data preparation, modeling with PCA and multiple regression, performance evaluation.
- **Technologies :** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Statsmodels)

Log Analysis with Apache Pig

- Performed large-scale data analysis using Hadoop and HDFS.
- Developed Apache Pig scripts for log analysis, including query segmentation by browser and IP request counting.
- **Technologies:** Apache Hadoop, Apache Pig, HDFS.

Link https://github.com/mereymouafi/Log-Analysis-with-Apache-Pig

Implementation of Apache Giraph

- Analyzed the architecture of Apache Giraph, focusing on master/worker nodes and ZooKeeper integration.
- Configured Giraph for distributed graph processing, including supersteps and replication.
- **Technologies:** Apache Giraph, ZooKeeper, Java

SKILLS

SKILLS

- **Programming & Development:** Python, Java, HTML, CSS, JavaScript
- **Databases:** SQL, NoSQL (MongoDB: Manipulation, Replication, Sharding), Oracle
- **Big Data:** Hadoop, HDFS, MapReduce, Pig, Spark, Kafka, Pig Latin
- **Data Analysis:** NumPy, Pandas, Scrapy, Matplotlib, Seaborn
- **Data Mining:** CRISP-DM methodology
- **Machine Learning:** Regression, Classification, Clustering, RNN
- **Deep Learning:** TensorFlow, Keras, PyTorch, OpenCV
- **Version Control:** Git, GitHub

INTERPERSONAL SKILLS

Critical Thinking | Problem Solving | Attention to Detail | Teamwork | Adaptability | Conflict Resolution
